Note Regarding Use of Non-GAAP Financial Measures

Certain of the information set forth herein, including EBITDA and adjusted EBITDA, are non-GAAP financial measures. Netlist believes this information is useful to investors because it provides a basis for measuring Netlist's available capital resources, the operating performance of Netlist's business and Netlist's cash flow, excluding certain non-cash income or expense items that are not directly attributable to its core operating results. Netlist defines EBITDA as net income (loss) calculated in accordance with accounting principles generally accepted in the United States of America ("GAAP"), plus interest expense, net, plus provisions for income taxes, plus depreciation and plus amortization, and Netlist defines adjusted EBITDA as EBITDA plus stock-based compensation expense and plus (minus) other expense (income), net. Netlist expects to continue to incur expenses similar to the non-cash items added to or subtracted from net income (loss) to calculate EBITDA and adjusted EBITDA; accordingly, the exclusion of these items in the presentation of these non-GAAP financial measures should not be construed as an inference that these items are unusual, infrequent or non-recurring. Netlist's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measure net income (loss) in evaluating Netlist's operating performance, capital resources and cash flow. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in conformity with GAAP, and non-GAAP financial measures as reported by Netlist may not be comparable to similarly titled amounts reported by other companies.
