About Netlist, Inc.

Netlist designs and manufactures high-performance logic-based memory subsystems for the server and high-performance computing and communications markets. The Company's memory subsystems are developed for applications in which high-speed, high-capacity memory, functionality, small form factor, and heat dissipation are key requirements. These applications include tower-servers, rack-mounted servers, blade servers, high-performance computing clusters, engineering workstations, and telecommunication equipment. Netlist maintains its headquarters in Irvine, California with manufacturing facilities in Suzhou, China.
