Note Regarding Use of Non-GAAP Financial Measures

Certain of the information set forth herein, including EBITDA and adjusted EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization), may be considered non-GAAP financial measures. Netlist believes this information is useful to investors because it provides a basis for measuring Netlist's available capital resources, the operating performance of Netlist's business and Netlist's cash flow, excluding net interest expense, provisions for income taxes, depreciation, amortization, stock-based compensation and net other expense that would normally be included in the most directly comparable measures calculated and presented in accordance with Generally Accepted Accounting Principles ("GAAP"). Netlist's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating Netlist's operating performance, capital resources and cash flow. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-financial measures as reported by Netlist may not be comparable to similarly titled amounts reported by other companies.

Adjusted EBITDA loss is a non-GAAP measure in which the net interest expense, provision for income taxes, depreciation, amortization, stock-based compensation and net other expense are added back to the GAAP basis loss. The non-GAAP measures are described above and are reconciled to the corresponding GAAP measure in the condensed consolidated financial statements portion of this release under the heading "Unaudited Schedule Reconciling GAAP Net Loss to Non-GAAP EBITDA and Adjusted EBITDA."
